

# Things to do in winter

- 1 Make a mobile mud pit in a wheelbarrow or bucket
- 2 Wear a raincoat and gumboots and stomp in the biggest, wettest puddles you can find
- 3 Make a bonfire with an adult and cook damper on a stick
- 4 Sketch a tree that has lost its leaves and then decorate it
- 5 Make bubbles outside and see if it's cold enough for them to turn to ice
- 6 Melt a snowball and see how much water it holds
- 7 Listen to the local weather and go outside to experience rain, snow or the wind
- 8 Have a cubby building competition with your friends
- 9 Make a birdfeeder to hang in your backyard and watch who comes to visit
- 10 Go on a winter picnic (take a thermos of hot chocolate or hot soup...yum!)
- 11 Collect pine cones and decorate them
- 12 Grab a plastic bag and slide down a grassy, wet hill
- 13 Wrap up in a big blanket and go out at night to see the stars
- 14 Go on a nature walk and look for animal tracks
- 15 Make a rain gauge so you can measure the rain in your backyard
- 16 Pretend you're a modern day explorer and go on a photo taking expedition outside
- 17 Make a snow sculpture (use blocks of ice if there's no snow)
- 18 Go on a walk and count how many snails you find
- 19 Watch a spider spin its web
- 20 Spend the entire day outside, no matter the weather, and see how many things you can do
